Personal Statement

I've recently completed my Master's in IT and am looking to gain work experience in the tech space. During my studies, I've built practical skills that I'd love to be able to put to good use helping people. I'm looking to join a supportive and collaborative environment where I can continue my learning journey and contribute to solving real-world problems.

Skills

Languages: Python, Java, C#, C, JavaScript, TypeScript, PHP, SQL, Bash, ASM, HTML, CSS.

Development Tools: React, React Native, MySQL, MongoDB, Unity, Android Studio.

Tools and Platforms: GitHub, Trello, Figma, ArchiMate, Visual Paradigm, AWS, Raspberry Pi, Linux, Windows.

Education

Master of Information Technology - *The University of Auckland* | Feb 2026

- Completed, awaiting final results.
- Areas Studied: Software Engineering, UX/HCI, Data Analytics, Digital Health Systems, Smart-device Security, Cloud Architecture.

Bachelor of Computer and Information Sciences - *Auckland University of Technology* | March 2024

- Double major in Digital Services and Software Development.

NCEA Level 3 - *St Peter's College* | 2020

- Achieved with Excellence, involved in Badminton and Orchestra.

Work Experience

IT Student Intern - *University of Auckland (ICT Graduate School)* | Nov 2025 - Feb 2026

- Designed and developed a community safety platform for improved sharing of safety news and incident reports in a more useful format. Focused on identifying user needs and creating practical value. Used AI tools to accelerate fullstack problem solving and support rapid iterations.
- Highly Commended Team Award - sprint presentations 1 & 2 (top), Deloitte Poster Competition

IT Sales Intern - *Stratus* | Nov 2024 - Dec 2024

- Reached out to nearby businesses, mainly via email, to expand the customer base. Secured one interested customer and two company invites to business networking groups.

Gardener - *Private Employer* | Jan 2022 - Jan 2023

- Trimmed garden hedges & shrubs, and cleared leaves & weeds to achieve customer satisfaction.

Violin Tutor - *Private Employer* | May 2022 - Nov 2022

- Guided a violin student through practice sessions to facilitate their learning.

Other Team Project Experience

Dental Research and Development Project (*Minute Taker, Frontend Dev)*

- We worked with a 3rd party client, with regular meetings to learn requirements & domain knowledge, give progress updates, and seek feedback. We developed a web app with React, with a focus on documenting decisions. I did frontend styling, taking on practical UI and UX considerations.

Fingerprint Attendance IoT Device (*Team Leader, Dev)*

- We developed a Raspberry Pi-based IoT device. I learnt how to wire sensors and control them using Python. We used an MQTT connection to Amazon Web Services to collect and manipulate data.

3D Snake Game (*Roles: Scrum Master, Game Dev)*

- We used Agile, using standup meetings and sprint reviews to identify & resolve blockages and keep development focused. It was developed in Unity. My responsibilities involved UI, player interaction, gameplay mechanics, and audio, using simple conditional statements and if-else loops.
